Pune

Product : Standout

- Write clean, efficient, and modular code following best coding standards to ensure maintainability and scalability.
- Take ownership of assigned tasks by analyzing requirements, planning the approach, and delivering well-tested features on time.
- Proactively practice and explore new features or code structures to improve understanding and technical depth.
- Continuously learn the product architecture and flow by diving into the codebase, understanding module interactions, and collaborating with cross-functional teams.
- Contribute to improving development workflows, suggesting optimizations, and participating in peer reviews to maintain code quality.

Frontend Developer
ILMTEC Solutions

Jan'24 - Apr'25 1yr, 4m
Pune

- Developed responsive web applications ensuring compatibility across browsers.
- Collaborated with teams for seamless integrations.
- Optimized performance.
- Documented processes effectively.

ILmtec Solutions

Jul'23 - Dec'23

6m

Pune

- Followed proper coding practices such as writing clean, reusable, and modular code.
- Acted on given tasks by breaking them into smaller steps and solving them systematically.
- Practiced features independently to gain hands-on experience.
- Learned the overall project flow by exploring the codebase.

Fellowship

ILMTEC Solutions

May'23 - Jun'23

2m

Pune

- Built and optimized responsive user interfaces using **Angular**, **TypeScript**, **HTML**, and **SCSS**.
- Worked on real-world tasks and features to understand the full development lifecycle—from requirement breakdown to deployment.
- Explored existing Angular projects to learn component structure, routing, service handling, and state management.
- Practiced assigned challenges to strengthen knowledge of Angular concepts and improve debugging skills.
- Collaborated with mentors and team members through regular code reviews, standups, and feedback sessions.
